

CONTEMPORARY TEXTILE STUDIO CO-OPERATIVE presents
International Visiting Artist: **Marjolein Dallinga**

WORKSHOP:
*And As Long As
There Is Movement
There Is Life;
Wearable Felt Sculpture*

**Friday, June 15 to
Sunday, June 17, 2018
10:00 am - 4:00 pm**

TUITION: \$350.00 + \$20.00 materials fee + HST

In this 3-day experimental discovery workshop, students will be challenged to play using sculptural felting techniques, deepening their awareness of the creative process with a focus on the journey and not the end result. We will explore different sculptural form ideas including folding and unfolding, building relief and adding shape to surface, while investigating colour, design and concept, all to become more aware of how, and why, we want to use this medium. The first day, we will play with the processes of shortening, thickening, tightening and shrinking felted surfaces. Then, we will each work on our unique wearable designs. At the end of each day we will discuss creation to heighten awareness of color and design choices.

Basic felting experience suggested. A materials list will be provided upon registration. Maximum 10 students.

To register please contact: info@textilstudio.ca or visit our website
